Our capabilities in Sharepoint

At Epicbliss, we unlock the full potential of SharePoint to centralize content, streamline collaboration, and empower organizations with secure, scalable document and workflow management — all within a modern digital workspace.

Our SharePoint Capabilities Include:

-  **Modern Intranet & Team Sites** – Designed dynamic, mobile-ready intranet portals and team sites to enhance communication and collaboration
-  **Document Management Systems** – Built structured, metadata-driven libraries with version control, check-in/check-out, and retention policies
-  **Workflow Automation** – Streamlined business processes like approvals and requests using Power Automate integrated with SharePoint lists/libraries
-  **Seamless Integration** – Connected SharePoint with Microsoft Teams, Outlook, Power BI, and external systems through custom connectors
-  **Granular Permissions & Compliance** – Configured role-based access, auditing, and DLP policies to ensure enterprise-level security
-  **Intelligent Search & Navigation** – Implemented metadata tagging, content types, and managed navigation for faster content discovery
-  **Hybrid & Cloud Deployment** – Delivered solutions across SharePoint Online and on-premise environments based on organizational needs

Collaborate smarter with Epicbliss — where digital workplaces are built on SharePoint excellence.

Project: SharePoint Modern Intranet for Tire Manufacturing Company

- Developed a SharePoint Modern Intranet to boost internal collaboration and streamline communication.
- Included sections for company events, custom forms (like leave requests), and document templates for consistency.
- Set up a document repository to store key policies, manuals, and resources.
- Added a suggestion box to encourage employee feedback and innovation.
- Implemented SPFx and Modern UI for a responsive and engaging digital workplace.

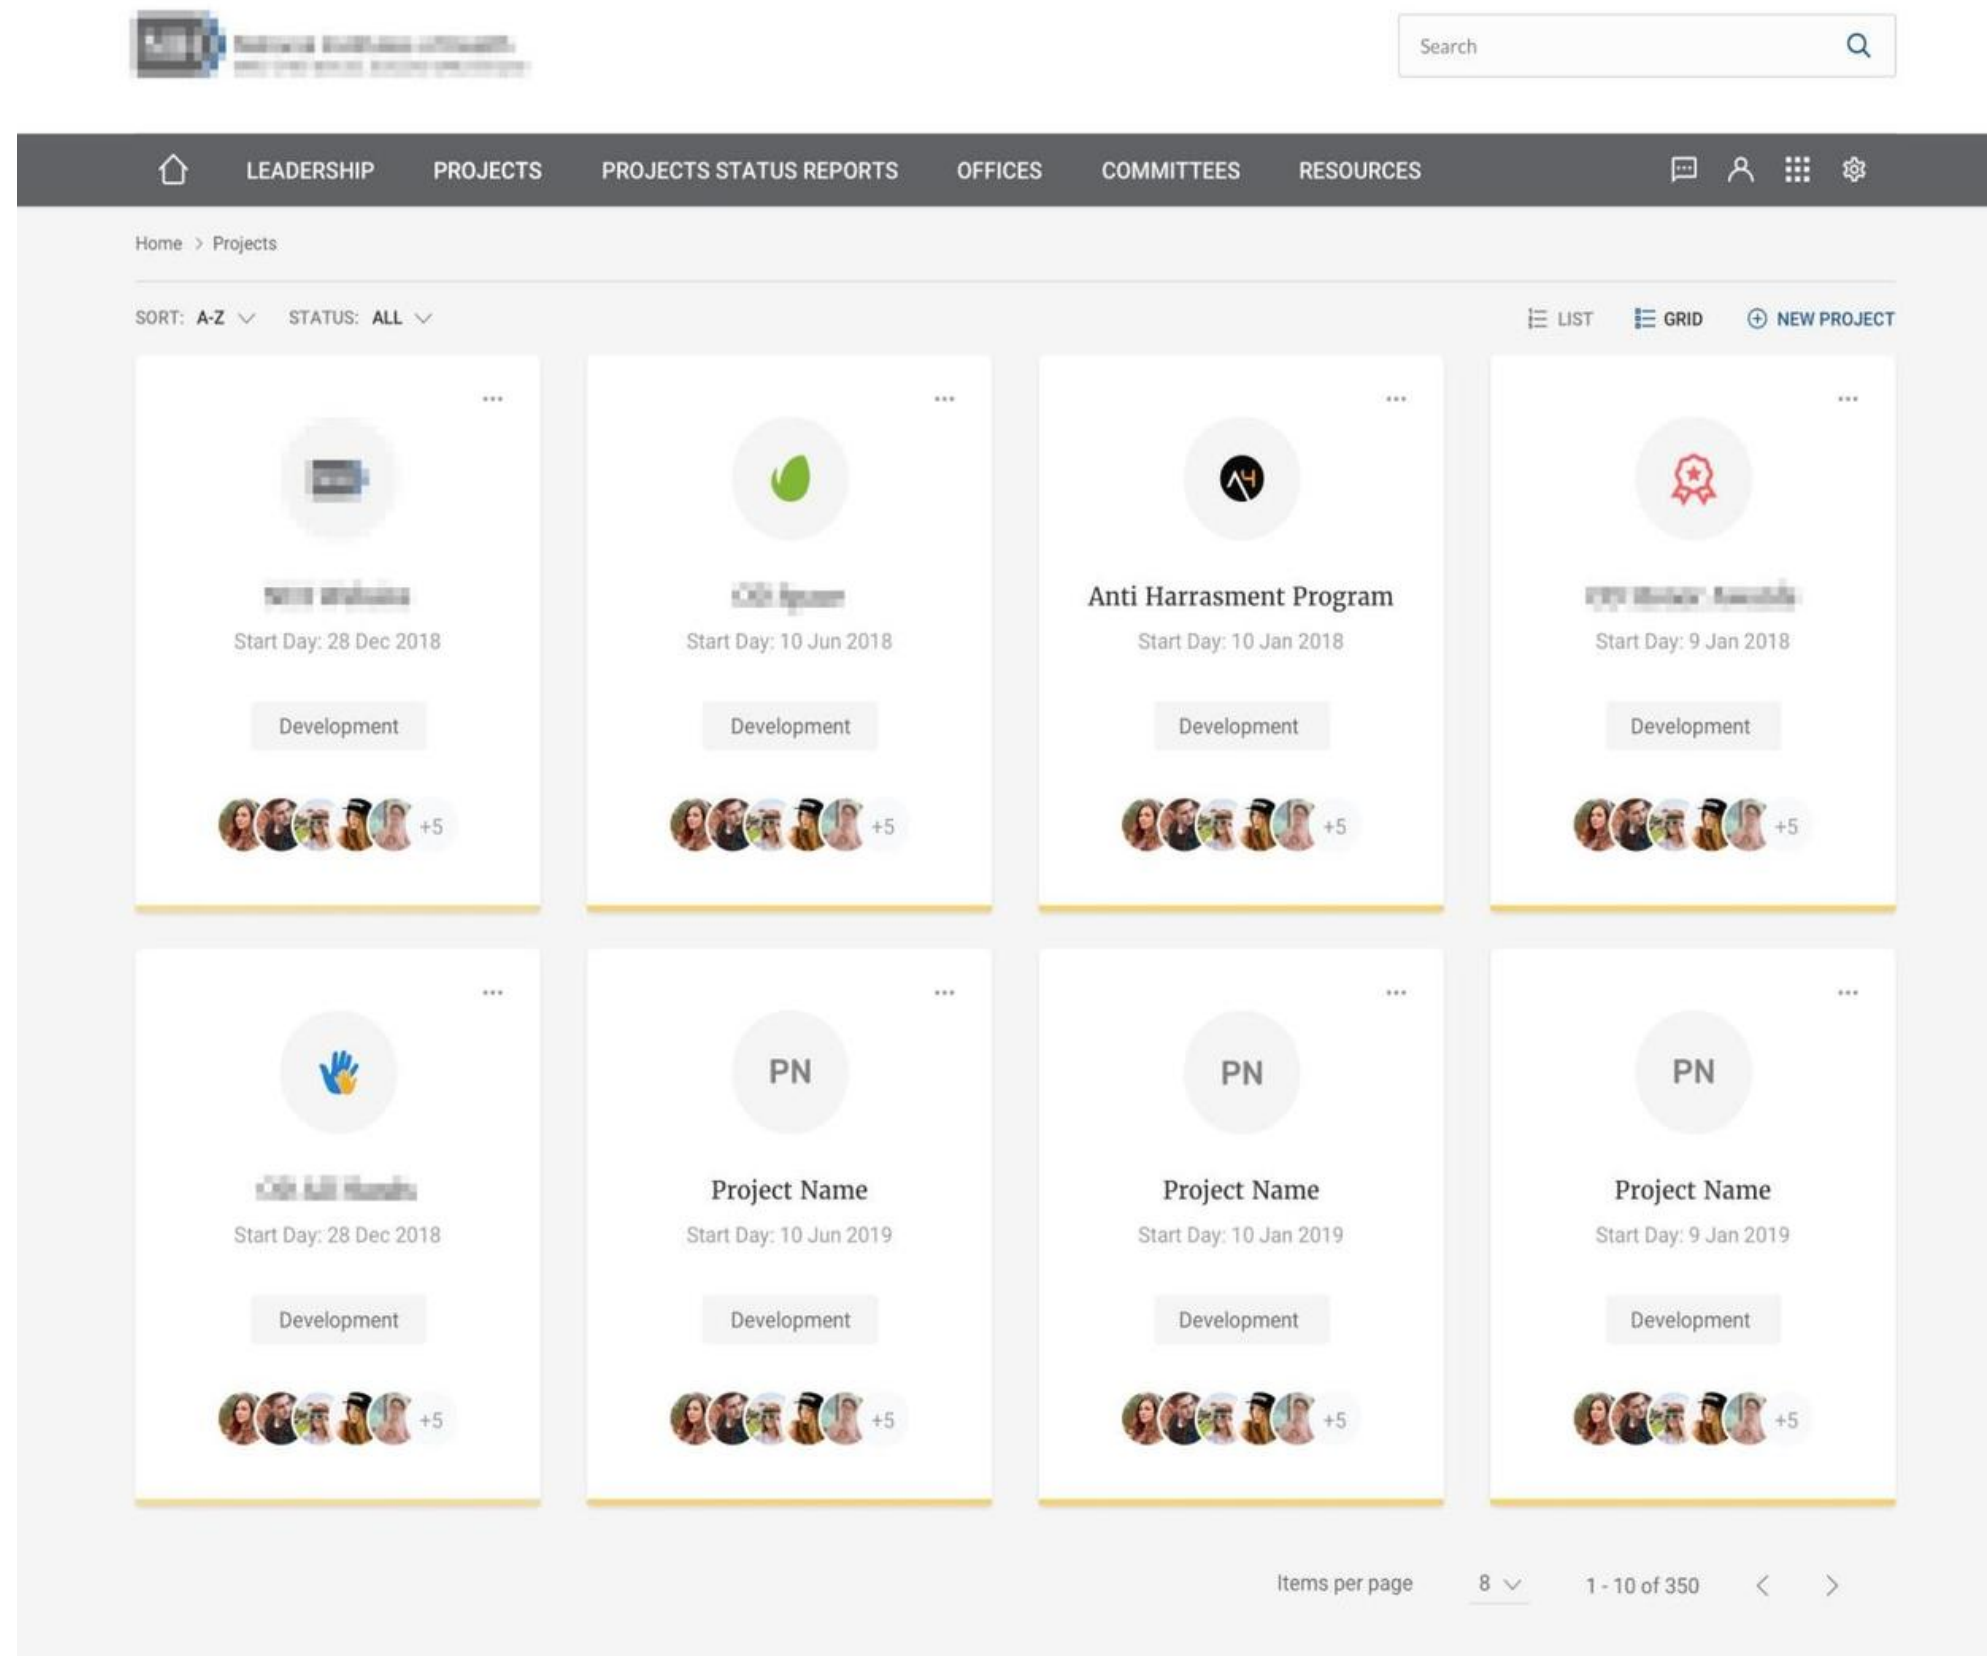

Intranet Projects Delivered

Client: Healthcare Division – SharePoint Intranet Solution

-  The client, a division of a large healthcare organization, needed a centralized platform to share internal news,  policies, and  guidelines with their staff.
-  As SharePoint developers, we were responsible for the  technical implementation of the solution based on the provided design mockups.
-  Delivered a user-friendly and secure intranet tailored to meet internal communication needs within the healthcare environment.

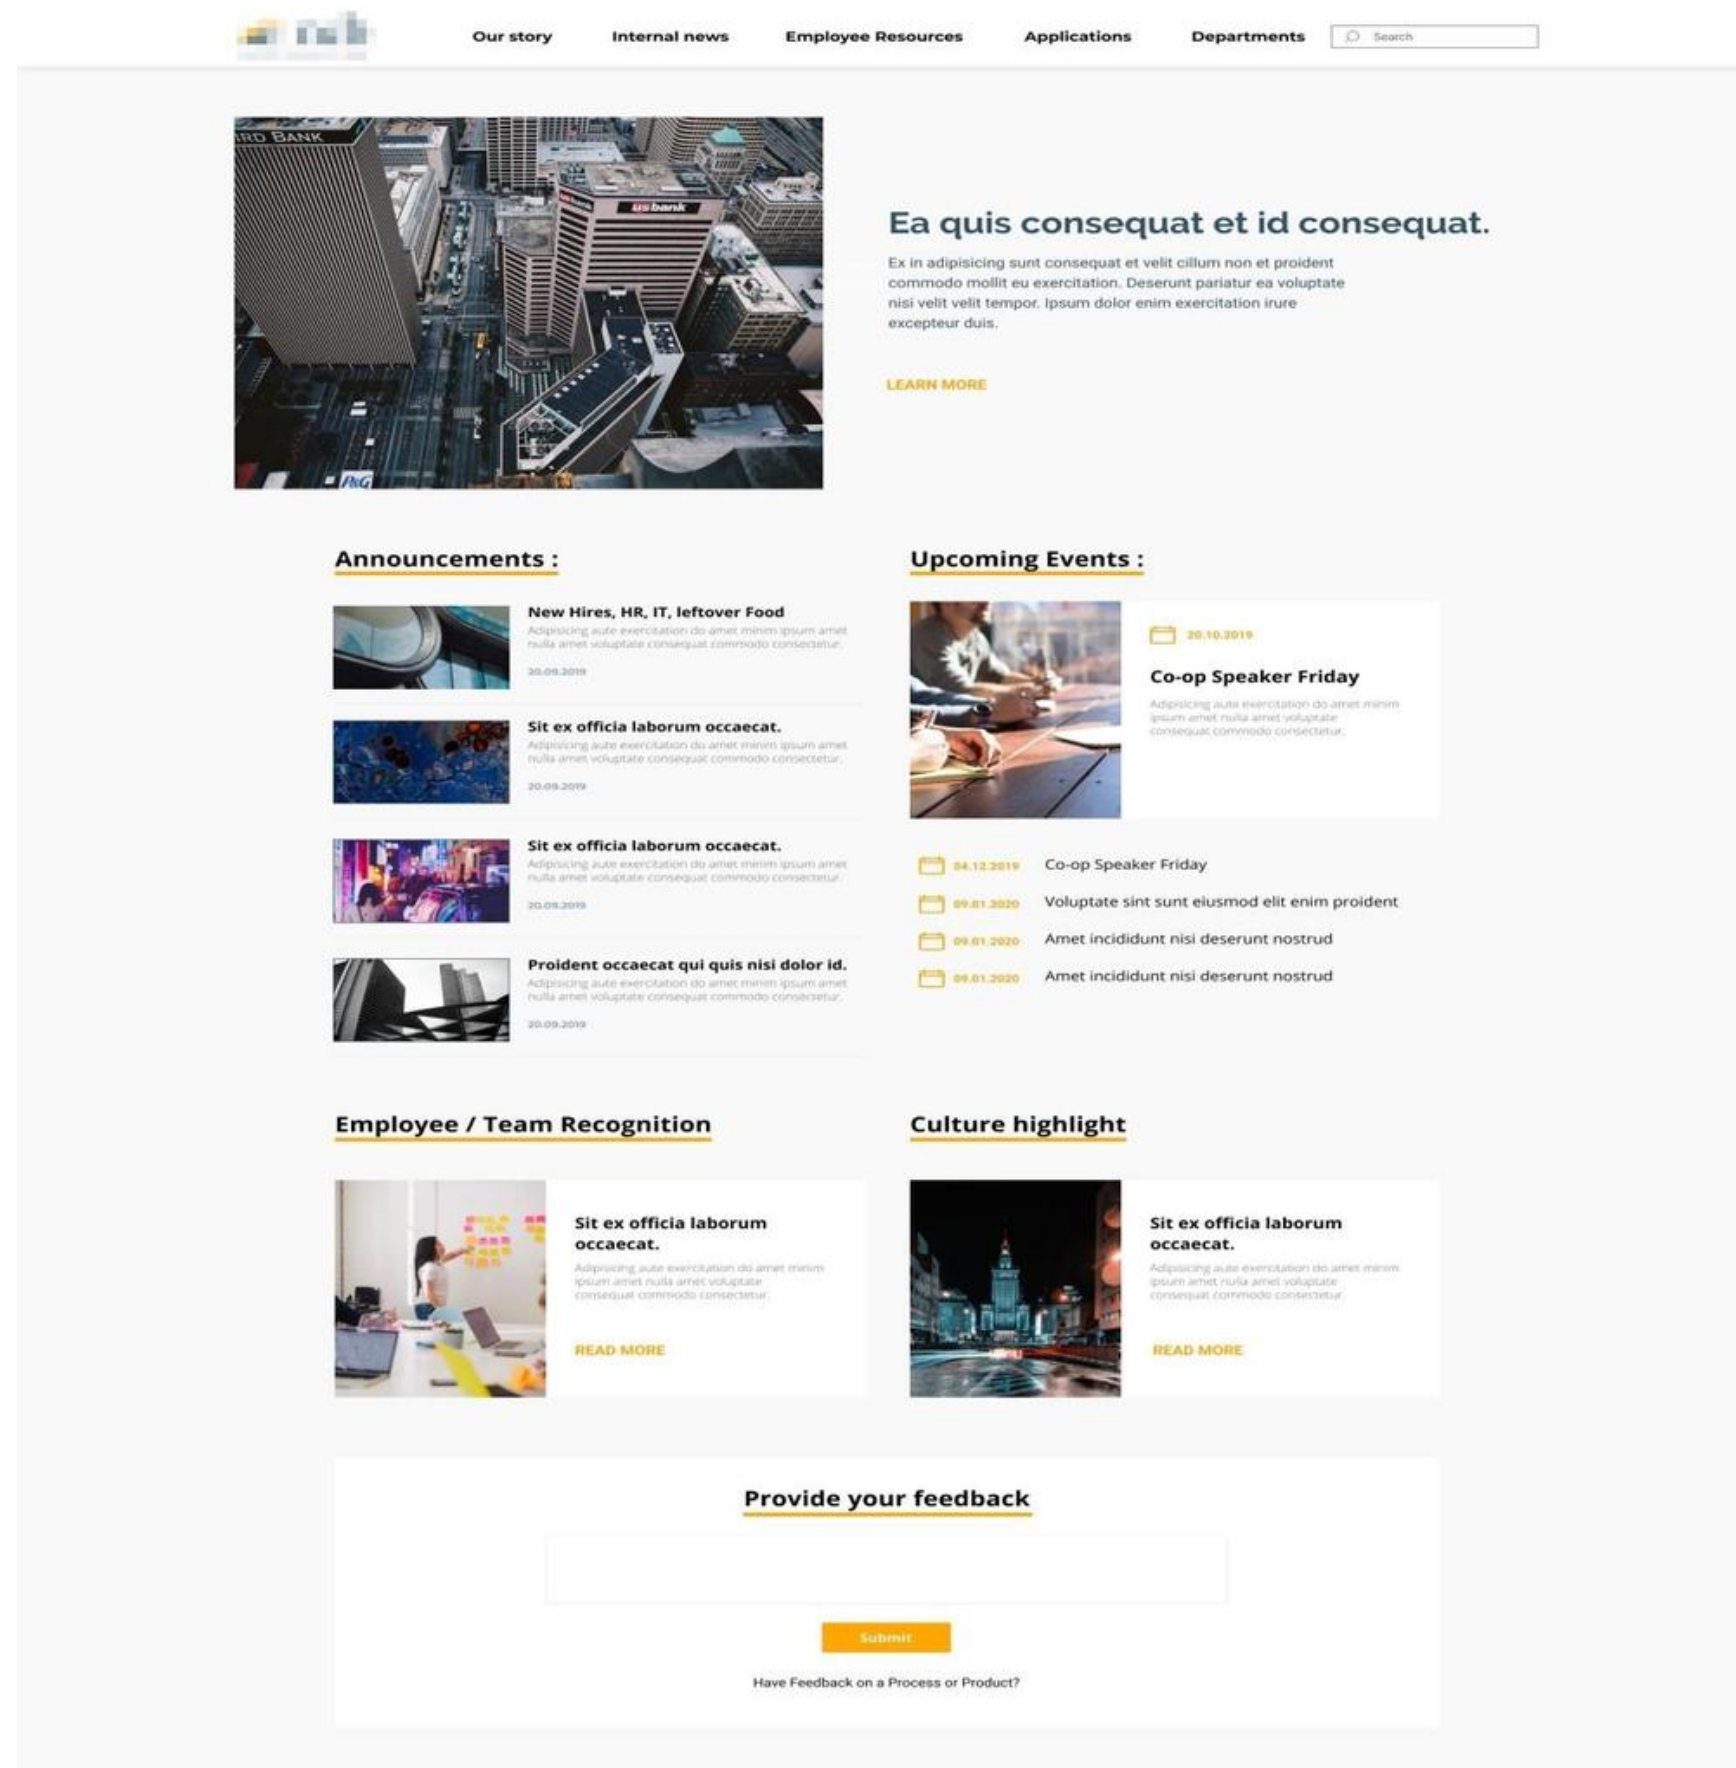

Intranet Projects Delivered

SharePoint Intranet – Project Management Dashboard

-  The SharePoint intranet page displayed features a project management dashboard with a grid layout of project cards, each showing the  project name,  start date,  current status, and  team member avatars.
-  The page includes navigation tabs for sections like  Leadership,  Projects, and  Resources, along with  pagination controls for browsing multiple projects.

Intranet Projects Delivered

- 📄 The client was seeking a single place for document storage, 🤝 employee collaboration, and 📰 company news and events updates.

- 💡 We proposed to implement an Intranet with SharePoint Online. 🛠️ We were responsible for solution & information architecture, 🎨 design, and ⚙️ implementation.

Document Management

Every project will have its own Document Management System (DMS).

Only users with appropriate permissions on the project will be able to view and manage documents related to that specific project.

Client Testimonials

- Real pleasure consulting with Ravi & Team Epicbliss to set up our company's entire SharePoint Intranet and portal. We will definitely be reaching out to team for future work to be done. - **Rachelle Glaccer (USA)**
- Overall Epicbliss delivered quality work. They have top-notch work ethics and a winning attitude. We recognize and appreciate your dedicated efforts. Thank you. - **Stephen Pean (Canada)**
- A+++. Very easy to work with and professional team Epicbliss - **Archie Patterson (Australia)**
- Ravi and team pack in terabytes of SharePoint and BI wisdom :-)
Are very clear in communication and can provide one-stop solution for everything SharePoint, database, data analytics or BI.
Look forward to working with them in future as well.
- **Marco (Germany)**
